RISK/RETURN SUMMARY

INVESTMENT OBJECTIVE

The Nia Impact Solutions Fund (the Fund”) seeks long-term capital appreciation by investing in companies that contribute towards advancements in the areas of diversity and inclusion, sustainability and/or social justice.

FEES AND EXPENSES

This table describes the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below.**

Shareholder Fees

(fees paid directly from your investment)

Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	None
Maximum Contingent Deferred Sales Charge (Load)	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends	None
Redemption Fee	None

Annual Fund Operating Expenses

(expenses that you pay each year as a percentage of the value of your investment)

Management Fees	0.95%
Distribution and/or Service (12b-1) Fees	None
Other Expenses ⁽¹⁾	0.40%
Total Annual Fund Operating Expenses	1.35%
Fee Waivers and/or Expense Reimbursement ⁽²⁾	<u>(0.36)%</u>
Total Annual Fund Operating Expenses After Fee Waivers and/or Expense Reimbursement	<u>0.99%</u>

⁽¹⁾ “Other Expenses” are based on estimated amounts for the current fiscal year.

⁽²⁾ Nia Impact Capital (the “Adviser”) has contractually agreed, until June 30, 2025, to reduce Management Fees and reimburse Other Expenses to the extent necessary to limit Total Annual Fund Operating Expenses (exclusive of brokerage costs, taxes, interest, borrowing costs such as interest and dividend expenses on securities sold short, costs to organize the Fund, acquired fund fees and expenses, and extraordinary expenses such as litigation and merger or reorganization costs and other expenses not incurred in the ordinary course of the Fund’s business) to an amount not exceeding 0.99% of the average daily net assets of the Fund. Management Fee reductions and expense reimbursements by the Adviser are subject to repayment by the Fund for a period of 3 years after the date that such fees and expenses were incurred, provided that the repayments do not cause Total Annual Fund Operating Expenses to exceed (i) the expense limitation then in effect, if any, and (ii) the expense limitation in effect at the time the expenses to be repaid were incurred. Prior to June 30, 2025, this agreement may not be modified or terminated without the approval of the Fund’s Board of Trustees (the “Board”). This agreement will terminate automatically if the Fund’s investment advisory agreement with the Adviser is terminated.

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year, that the operating expenses of the Fund remain the same and the contractual agreement to limit

expenses remains in effect until June 30, 2025. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

1 Year	3 Years
\$101	\$355

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in Annual Fund Operating Expenses or in the Example, affect the Fund’s performance. As the Fund recently commenced operations, it does not yet have portfolio turnover to report.

PRINCIPAL INVESTMENT STRATEGIES

Under normal circumstances the Fund seeks to achieve its investment objective by investing at least 80% of its assets in equity securities of U.S. and non-U.S. companies that meet the Adviser’s environmental, social, and corporate governance (“ESG”) criteria, described below, at the time of investment. The Fund’s 80% policy is a non-fundamental investment policy that can be changed by the Fund upon 60 days’ prior notice to shareholders. Equity securities include common stocks and American depositary receipts (“ADRs”) of companies of any capitalization size, including large-cap, mid-cap and small-cap companies, that the Adviser believes present an attractive opportunity for long-term capital appreciation.

In selecting investments for the Fund, the Adviser seeks to identify companies across the globe with diverse leadership that are focused on creating a just, sustainable and inclusive world, in accordance with the Adviser’s investment thesis that, over the long term, the markets will reward companies that focus on solving major social and environmental issues. The Adviser’s approach to selecting companies for investment has three parts: (1) assessing for alignment with the Adviser’s six “solutions themes”; (2) screening for diversity in leadership; and (3) performing financial analysis with an ESG lens.

Alignment with Solutions Themes. The Adviser has identified six “solutions themes,” which the Adviser believes are among the most critical social and environmental issues confronting our planet, our economies, and society:

- 1) Sustainable Planet – Climate change reversal and mitigation, including fossil-fuel free, non-extractive renewable energy, energy-efficient technology, sustainable design and engineering services.
- 2) Affordable Housing – Environmentally friendly housing promoting development of community.
- 3) Sustainable & Affordable Transportation – An emphasis on products and systems that eliminate or reduce damaging emissions, while also expanding access to clean transportation alternatives across income levels.
- 4) Natural & Organic Foods – Promotion of products and services supporting sustainable agriculture, access to healthy food and a healthier planet.
- 5) Healthcare – Focusing on both innovation and access, including prevention, early detection, women’s health, innovative cancer treatments and unmet medical needs addressing the HIV/AIDS and COVID-19 pandemics and other infectious diseases affecting women and people of color.
- 6) Education, Communications, & Financial Services – Access to basic banking and financial literacy that expand opportunities and level the playing field for underserved populations with historically limited access. Services and technology to improve education access and facilitate positive communication.

The Adviser seeks to identify companies offering products and/or services, including those in development, that the Adviser believes are or are expected to contribute to improving conditions in one or more of categories covered by

the six solutions themes. Which theme is prioritized for analysis for a particular company is dependent upon the company's sector and industry. Among other things, the Adviser uses the Sustainable Accounting Standards Board (SASB) standards to identify which solutions themes are most critical for each sector and industry and could therefore most materially impact a particular company and its potential future value.

Once the Adviser has identified a company's fit within the solutions themes, the Adviser performs an analysis of the company's potential for impact with respect to the identified solution theme both on an absolute basis and as compared to its peer companies, the company's industry and the general market. To conduct this analysis, the Adviser seeks to gather and identify numerical and descriptive data that depicts where a company's impact has been, is currently, and where it is directionally likely to go. Because these categories differ greatly, the approach to analysis varies but generally includes both quantitative data (for example, measurements of greenhouse gas emissions) and qualitative assessment (for example, demonstrated prioritization of research and treatment of healthcare needs, with particular attention to women and people of color).

The Adviser seeks companies whose core business model, products, and/or services contributes to addressing one or more of the Adviser's solutions themes, and whose management is committed to improving diversity, equity and inclusion practices within the company.

As a result of the Adviser's focus on companies providing products and/or services that align with one or more of the solutions themes, the Adviser expects that the Fund will invest primarily in companies from the following sectors: Health Care; Technology; Communications; Industrials; Consumer Staples; Financials; Consumer Discretionary; Real Estate; Utilities; and Energy.

Diversity in Leadership. In selecting its universe of investments, the Adviser seeks to identify those companies that meet the Adviser's diversity criteria with regards to leadership positions both at the executive management and board of directors levels. The Adviser's diversity criteria are representation based and vary based on a company's sector and geographic location. Companies must satisfy the Adviser's diversity criteria as of the time of investment in order to be eligible for investment by the Fund. Among other things, the criteria include a requirement for inclusion of women in a company's leadership positions.

Financial Analysis with an ESG Lens. The Adviser seeks to identify companies that present an attractive opportunity for long-term capital appreciation based on an assessment of a company's fundamental business properties and ESG related policies and practices. The Adviser's view is that both traditional financial analysis and ESG considerations may reveal disparities between a company and its competitors and identify operational resilience (or lack thereof), and should therefore inform the Adviser's views on the overall attractiveness of a company's prospects.

The Adviser considers a company's fundamental business properties using traditional methods of financial statement analysis, including quantitative analysis, proprietary valuation methods, and financial analysis in order to assess each company on the basis of historical and expected future performance. This involves trend and ratio analysis, and observation of growth rates, margins, leverage ratios, and cash flow yield, among other things. Analysis of a company's financial prospects may also include broader considerations such as assessment of a company's overall business strategy and evaluation of market conditions, both for a company's specific product/service, as well as the macroeconomic environment.

The Adviser also incorporates into this analysis consideration of a company's ESG policies and practices, in accordance with the Adviser's view that these factors contribute towards a company's financial prospects. The Adviser typically uses the SASB standards as a starting point for identifying which ESG policies and practices are more critical for a company, depending on its sector and industry. Environmental factors considered by the Adviser may include assessment of a company's policies and practices regarding greenhouse gas emissions, air quality, energy management, water & wastewater management, waste & hazardous materials management, and a company's

overall ecological impacts. The Adviser assesses a company's social performance across a wide range of metrics which may include community relations, customer privacy, data security, access & affordability, product quality & safety, customer welfare, selling practices and product labeling. Human capital factors considered may include labor practices, employee health and safety measures, and employee engagement, diversity and inclusion. Which ESG factors are prioritized for analysis will vary depending on a company's business line and industry and different combinations of these issues will be prioritized for different companies. The Adviser may also consider factors that may not directly impact a company's value in the near-term yet reflect a company's impact on its stakeholders and/or the environment, based on the Adviser's view that such impacts can enhance a company's value in the long-term.

Based on the totality of the foregoing analysis, which combines the various quantitative and qualitative data considered, the Adviser develops a view of a company and an investment thesis.

The Adviser will seek to use its influence as an investor, both through the application of the Adviser's proxy voting guidelines and through dialogue with management of companies in the portfolio, to encourage portfolio companies to further their positive impact in the areas of the solutions themes, social justice and enhance their ESG policies and practices.

The Adviser will monitor and seek to measure whether the Fund's investments are achieving the desired impacts on an ongoing basis. Some of the metrics that the Adviser will review to attempt to measure impact include the number of proxies voted with relevant impact topics, the number of shareholder resolutions filed or joined, the percentage of votes received in favor of filed resolutions, and the number of portfolio companies that receive strategic or operational support from the Adviser to improve ESG policies and practices and the status of those improvements.

The Adviser may sell an investment when, in the Adviser's estimation, an investment no longer presents an attractive opportunity for long-term capital appreciation, if a company no longer satisfies the Adviser's leadership diversity criteria, if a company no longer aligns with any of the solutions themes, or if the Adviser identifies other more attractive investments.

PRINCIPAL RISKS

As with any mutual fund investment, there is a risk that you could lose money by investing in the Fund. The success of the Fund's investment strategy depends largely upon the Adviser's skill in selecting securities for purchase and sale by the Fund and there is no assurance that the Fund will achieve its investment objective. Because of the investment techniques the Adviser uses, the Fund is designed for investors who are investing for the long term. The Fund may not be appropriate for use as a complete investment program. An investment in the Fund is not a deposit of the bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The principal risks of an investment in the Fund are generally described below.

ESG Investing Risk. The Fund's incorporation of ESG considerations in its investment process may cause it to make different investments than funds that have a similar investment universe and/or investment style but that do not incorporate such considerations in their strategy or investment processes. Under certain economic conditions, this could cause the Fund's investment performance to be worse than similar funds that do not incorporate such considerations in their investment strategies or processes. In applying ESG criteria to its investment decisions, the Fund may forgo higher yielding investments that it would invest in absent the application of its ESG investing criteria. The Fund will seek to identify companies that it believes meet its ESG criteria based on the data provided by third parties. The data provided by third parties may be incomplete, inaccurate or unavailable, which could cause the Adviser to incorrectly assess a company's ESG practices. The Fund may invest in companies that do not reflect the beliefs and values of any particular investor.

Active Management Risk. Due to the active management of the Fund by the Adviser, the Fund could underperform its benchmark index and/or other funds with similar investment objectives and strategies. The ability of the Fund to meet its investment objective is directly related to the success of the Adviser's investment process and there is no guarantee that the Adviser's judgment about the attractiveness, value and potential appreciation of a particular investment for the Fund will be correct or produce the desired results.

Equity Securities Risk. Equity prices are volatile and the prices of equity securities in which the Fund invests may fluctuate in response to many factors, including, but not limited to, the activities of the individual companies whose securities the Fund owns, general market and economic conditions, interest rates, and specific industry changes. Such price fluctuations subject the Fund to potential losses.

- **Large-Capitalization Company Risk.** Large-capitalization companies are generally more mature and may be unable to respond as quickly as smaller companies to new competitive challenges, such as changes in technology and consumer tastes, and also may not be able to attain the high growth rate of successful smaller companies, especially during extended periods of economic expansion. There may be times when the returns for large capitalization companies generally trail returns of smaller companies or the overall stock market.
- **Small-Cap and Mid-Cap Company Risk.** Investing in small- and mid-capitalization companies involves greater risk than is customarily associated with larger, more established companies. Small- and mid-cap companies frequently have less management depth and experience, narrower market penetrations, less diverse product lines, less competitive strengths and fewer resources. Due to these and other factors, stocks of small- and mid-cap companies may be more susceptible to market downturns and other events, less liquid, and their prices may be more volatile.

Foreign Securities Risk. Investments in foreign securities involve risks that may be different from those of U.S. securities. Foreign securities may not be subject to uniform audit, financial reporting, or disclosure standards, practices, or requirements comparable to those found in the United States. Foreign securities are also subject to the risk of adverse changes in investment or exchange control regulations or currency exchange rates, expropriation or confiscatory taxation, limitations on the removal of funds or other assets, political or social instability and nationalization of companies or industries. In addition, the dividend and interest payable on certain of the Fund's foreign securities may be subject to foreign withholding taxes. Foreign securities also involve currency risk, which is the risk that the value of a foreign security will decrease due to changes in the relative value of the U.S. dollar and the security's underlying foreign currency.

- **American Depository Receipt ("ADR") Risk.** ADRs are subject to risks similar to those associated with direct investments in foreign securities. ADRs are securities that evidence ownership interests in a security or a pool of securities issued by a foreign issuer. The risks of depository receipts include many risks associated with investing directly in foreign securities, such as individual country risk, currency exchange risk, volatility risk, and liquidity risk. ADRs may be available through "sponsored" or "unsponsored" facilities. Unsponsored ADRs, which are issued by a depository bank without the participation or consent of the issuer, involve additional risks because U.S. reporting requirements do not apply and the issuing bank will recover shareholder distribution costs from movement of share prices and payment of dividends.
- **Currency Risk.** Changes in foreign currency exchange rates will affect the value of the Fund's foreign securities. Generally, when the value of the U.S. dollar raises relative to a foreign currency, securities valued in that foreign currency lose value in terms of U.S. dollars since that foreign currency is worth fewer U.S. dollars. Currency exchange rates can fluctuate for a number of reasons, including the economic stability of a country, changes in interest rates, devaluation of a currency by a country's government or central banking authority, and overall demand for a currency or lack thereof. Exchange rates can change significantly over short periods.

- **Emerging Markets Risk.** The Fund may invest in emerging market equity securities. In addition to the general risk of investing in foreign securities, investing in emerging markets can involve greater and more unique risks than those associated with investing in more developed markets. The securities markets of emerging countries are generally small, less developed, less liquid, and more volatile than securities markets of the U.S. and other developed markets. The risks of investing in emerging markets include greater social, political and economic uncertainties. Emerging market economies are often dependent upon a few commodities or natural resources that may be significantly adversely affected by volatile price movements against those commodities or natural resources. Emerging market countries may experience high levels of inflation and currency devaluation and have fewer potential buyers for investments. The securities markets and legal systems in emerging market countries may only be in a developmental stage and may provide few, or none, of the advantages and protections of markets or legal systems in more developed countries. Some of these countries may have in the past failed to recognize private property rights and have at times nationalized or expropriated the assets of private companies. Additionally, if settlements do not keep pace with the volume of securities transactions, they may be delayed, potentially causing the Fund's assets to be uninvested, the Fund to miss investment opportunities and potential returns, and the Fund to be unable to sell an investment. As a result of these various risks, investments in emerging markets are considered to be speculative and may be highly volatile.

Issuer Risk. Issuer risk is the risk that an issuer in which the Fund invests or to which it has exposure may perform poorly, and the value of its securities may therefore decline, which would negatively affect the Fund's performance.

Stock Market Risk. The return on and value of an investment in the Fund will fluctuate in response to stock market movements. Stocks are subject to market risks, such as a rapid increase or decrease in a stock's value or liquidity, fluctuations in price due to earnings, economic conditions and other factors beyond the control of the Adviser. A company's share price may decline if a company does not perform as expected, if it is not well managed, if there is a decreased demand for its products or services, or during periods of economic uncertainty or stock market turbulence, among other conditions. In a declining stock market, stock prices for all companies (including those in the Fund's portfolio) may decline, regardless of their long-term prospects. Certain market events could increase volatility and exacerbate market risk, such as changes in governments' economic policies, political turmoil, environmental events, trade disputes, and epidemics, pandemics or other public health issues. For example, the novel coronavirus disease (COVID-19) has resulted in closing borders, quarantines, cancellations, disruptions to supply chains and customer activity, as well as general concern and uncertainty, thus causing significant disruptions to global business activity and financial markets, and company closings and product cutbacks, the broad effects of which are currently difficult to assess. Turbulence in financial markets, and reduced liquidity in equity, credit and fixed income markets may negatively affect many issuers domestically and around the world, and can result in trading halts, any of which could have an adverse impact on the Fund. During periods of market volatility, security prices (including securities held by the Fund) could fall drastically and rapidly and therefore adversely affect the Fund.

New Fund and Management Risk. The Fund is new and has no operating history. Accordingly, investors in the Fund bear the risk that the Fund may not be successful in implementing its investment strategy or growing to an economically viable size, in which case the Board may determine to liquidate the Fund. In addition, although the Adviser has experience managing separate accounts using a similar strategy to the Fund, the Adviser has not previously served as an investment adviser to a registered investment company prior to the Fund's inception.

PERFORMANCE SUMMARY

The Fund is new and therefore does not have a performance history for a full calendar year to report. Once the Fund has returns for a full calendar year, this Prospectus will provide performance information which gives some indication of the risks of an investment in the Fund by comparing the Fund's performance with a broad measure of market performance. How the Fund has performed in the past (before and after taxes) is not necessarily an indication of how the Fund will perform in the future. Performance information, current through the most recent month end, is available by calling 833-571-2833 or visiting NIAIMPACTFUNDS.COM.

MANAGEMENT OF THE FUND

Nia Impact Capital is the Fund's investment adviser.

Portfolio Manager	Investment Experience with the Fund	Primary Title with Adviser
Kristin Hull, PhD	Since inception of the Fund (May 10, 2022)	Chief Investment Officer

PURCHASE AND SALE OF FUND SHARES

Minimum Initial Investment

The minimum initial investment amount is \$1,000 for all accounts.

Minimum Additional Investment

Once an account is open, additional purchases of Fund shares may be made at any time, and the minimum additional investment is \$100.

General Information

You may purchase or redeem (sell) shares of the Fund on each day that the New York Stock Exchange ("NYSE") is open for business. Transactions may be initiated by written request, by telephone or through your financial intermediary. Written requests to the Fund should be sent to the Nia Impact Solutions Fund, P.O. Box 46707, Cincinnati, Ohio 45246-0707. For more information about purchasing and redeeming shares, please see "How to Buy Shares" and "How to Redeem Shares" in this Prospectus or call 833-571-2833 for assistance.

Tax Information

The Fund's distributions are generally taxed as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account ("IRA"). Such tax-deferred arrangements may be taxed later upon withdrawal of monies from those arrangements.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or any other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Certain of these payments are sometimes referred to as "revenue sharing". Ask your salesperson or visit your financial intermediary's website for more information.

ADDITIONAL INFORMATION REGARDING THE FUND'S INVESTMENT OBJECTIVE, INVESTMENT STRATEGIES AND RELATED RISKS

Investment Objective

The Fund's investment objective is to seek long-term capital appreciation by investing in companies that contribute towards advancements in the areas of diversity and inclusion, sustainability and/or social justice.

The Board has reserved the right to change the investment objective of the Fund without shareholder approval upon at least 60 days' prior written notice to shareholders.

Investment Strategy

Under normal circumstances the Fund seeks to achieve its investment objective by investing at least 80% of its assets in equity securities of U.S. and non-U.S. companies that meet the Adviser's environmental, social, and corporate governance ("ESG") criteria, described below, at the time of investment. The Fund's 80% policy is a non-fundamental investment policy that can be changed by the Fund upon 60 days' prior notice to shareholders. Equity securities include common stocks and American depository receipts ("ADRs") of companies of any capitalization size, including large-cap, mid-cap and small-cap companies, that the Adviser believes present an attractive opportunity for long-term capital appreciation.

In selecting investments for the Fund, the Adviser seeks to identify companies across the globe with diverse leadership that are focused on creating a just, sustainable and inclusive world, in accordance with the Adviser's investment thesis that, over the long term, the markets will reward companies that focus on solving major social and environmental issues. The Adviser's approach to selecting companies for investment has three parts: (1) assessing for alignment with the Adviser's six "solutions themes"; (2) screening for diversity in leadership; and (3) performing financial analysis with an ESG lens.

Alignment with Solutions Themes. The Adviser has identified six "solutions themes," which the Adviser believes are among the most critical social and environmental issues confronting our planet, our economies, and society:

- 1) Sustainable Planet – Climate change reversal and mitigation, including fossil-fuel free, non-extractive renewable energy, energy-efficient technology, sustainable design and engineering services.
- 2) Affordable Housing – Environmentally friendly housing promoting development of community.
- 3) Sustainable & Affordable Transportation – An emphasis on products and systems that eliminate or reduce damaging emissions, while also expanding access to clean transportation alternatives across income levels.
- 4) Natural & Organic Foods – Promotion of products and services supporting sustainable agriculture, access to healthy food and a healthier planet.
- 5) Healthcare – Focusing on both innovation and access, including prevention, early detection, women's health, innovative cancer treatments and unmet medical needs addressing the HIV/AIDS and COVID-19 pandemics and other infectious diseases affecting women and people of color.
- 6) Education, Communications, & Financial Services – Access to basic banking and financial literacy that expand opportunities and level the playing field for underserved populations with historically limited access. Services and technology to improve education access and facilitate positive communication.

The Adviser seeks to identify companies offering products and/or services, including those in development, that the Adviser believes are or are expected to contribute to improving conditions in one or more of categories covered by the six solutions themes. Which theme is prioritized for analysis for a particular company is dependent upon the company's sector and industry. Among other things, the Adviser uses the Sustainable Accounting Standards Board (SASB) standards to identify which solutions themes are most critical for each sector and industry and could therefore most materially impact a particular company and its potential future value.

Once the Adviser has identified a company's fit within the solutions themes, the Adviser performs an analysis of the company's potential for impact with respect to the identified solution theme both on an absolute basis and as compared to its peer companies, the company's industry and the general market. To conduct this analysis, the Adviser seeks to gather and identify numerical and descriptive data that depicts where a company's impact has been, is currently, and where it is directionally likely to go. Because these categories differ greatly, the approach to analysis varies but generally includes both quantitative data (for example, measurements of greenhouse gas emissions) and qualitative assessment (for example demonstrated prioritization of research and treatment of healthcare needs, with particular attention to women and people of color).

The Adviser seeks companies whose core business model, products, and/or services contributes to addressing one or more of the Adviser's solutions themes, and whose management is committed to improving diversity, equity and inclusion practices within the company.

As a result of the Adviser's focus on companies providing products and/or services that align with one or more of the solutions themes, the Adviser expects that the Fund will invest primarily in companies from the following sectors: Health Care; Technology; Communications; Industrials; Consumer Staples; Financials; Consumer Discretionary; Real Estate; Utilities; and Energy.

Diversity in Leadership. In selecting its universe of investments, the Adviser seeks to identify those companies that meet the Adviser's diversity criteria with regards to leadership positions both at the executive management and board of directors levels. The Adviser's diversity criteria are representation based and vary based on a company's sector and geographic location. Companies must satisfy the Adviser's diversity criteria as of the time of investment in order to be eligible for investment by the Fund. Among other things, the criteria include a requirement for inclusion of women in a company's leadership positions.

Financial Analysis with an ESG Lens. The Adviser seeks to identify companies that present an attractive opportunity for long-term capital appreciation based on an assessment of a company's fundamental business properties and ESG related policies and practices. The Adviser's view is that both traditional financial analysis and ESG considerations may reveal disparities between a company and its competitors and identify operational resilience (or lack thereof), and should therefore inform the Adviser's views on the overall attractiveness of a company's prospects.

The Adviser considers a company's fundamental business properties using traditional methods of financial statement analysis, including quantitative analysis, proprietary valuation methods, and financial analysis in order to assess each company on the basis of historical and expected future performance. This involves trend and ratio analysis, and observation of growth rates, margins, leverage ratios, and cash flow yield, among other things. Analysis of a company's financial prospects may also include broader considerations such as assessment of a company's overall business strategy and evaluation of market conditions, both for a company's specific product/service, as well as the macroeconomic environment.

The Adviser also incorporates into this analysis consideration of a company's ESG policies and practices, in accordance with the Adviser's view that these factors contribute towards a company's financial prospects. The Adviser typically uses the SASB standards as a starting point for identifying which ESG policies and practices are more critical for a company, depending on its sector and industry. Environmental factors considered by the Adviser may include assessment of a company's policies and practices regarding greenhouse gas emissions, air quality, energy management, water & wastewater management, waste & hazardous materials management, and a company's overall ecological impacts. The Adviser assesses a company's social performance across a wide range of metrics which may include community relations, customer privacy, data security, access & affordability, product quality & safety, customer welfare, selling practices and product labeling. Human capital factors considered may include labor practices, employee health and safety measures, and employee engagement, diversity and inclusion. Which ESG

factors are prioritized for analysis will vary depending on a company's business line and industry and different combinations of these issues will be prioritized for different companies. The Adviser may also consider factors that may not directly impact a company's value in the near-term but that reflect a company's impact on its stakeholders and/or the environment, based on the Adviser's view that such impacts can enhance a company's value in the long-term.

Based on the totality of the foregoing analysis, which combines the various quantitative and qualitative data considered, the Adviser develops a view of a company and an investment thesis.

The Adviser will seek use its influence as an investor, both through the application of the Adviser's proxy voting guidelines and through dialogue with management of companies in the portfolio, to encourage portfolio companies to further their impact in the areas of the solutions themes and enhance their ESG policies and practices.

The Adviser will monitor and seek to measure whether the Fund's investments are achieving the desired impacts on an ongoing basis. Some of the metrics that the Adviser will review to attempt to measure impact include the number of proxies voted with relevant impact topics, the number of shareholder resolutions filed or joined, the percentage of votes received in favor of filed resolutions, and the number of portfolio companies that receive strategic or operational support from the Adviser to improve ESG policies and practices and the status of those improvements.

The Adviser may sell an investment when, in the Adviser's estimation, an investment no longer presents an attractive opportunity for long-term capital appreciation, if a company no longer satisfies the Adviser's leadership diversity criteria, if a company no longer aligns with any of the solutions themes, or if the Adviser identifies other more attractive investments.

PRINCIPAL RISKS

As with any mutual fund investment, there is a risk that you could lose money by investing in the Fund. The success of the Fund's investment strategy depends largely upon the Adviser's skill in selecting securities for purchase and sale by the Fund and there is no assurance that the Fund will achieve its investment objective. Because of the investment techniques the Adviser uses, the Fund is designed for investors who are investing for the long term. The Fund may not be appropriate for use as a complete investment program. An investment in the Fund is not a deposit of the bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The principal risks of an investment in the Fund are generally described below.

Active Management Risk. Due to the active management of the Fund by the Adviser, the Fund could underperform its benchmark index and/or other funds with similar investment objectives and strategies. The ability of the Fund to meet its investment objective is directly related to the success of the Adviser's investment process and there is no guarantee that the Adviser's judgment about the attractiveness, value and potential appreciation of a particular investment for the Fund will be correct or produce the desired results.

ESG Investing Risk. The Fund's incorporation of environmental, social and/or governance considerations in its investment process may cause it to make different investments than funds that have a similar investment universe and/or investment style but that do not incorporate such considerations in their investment strategy or processes. In applying ESG criteria to its investment decisions, the Fund may forgo higher yielding investments that it would invest in absent the application of its ESG investing criteria. The Fund's investment process may affect the Fund's exposure to certain investments, which may impact the Fund's relative investment performance depending on whether such investments are in or out of favor with the market. In addition, the Fund's investments in certain companies may be susceptible to various factors that may impact their businesses or operations, including costs associated with government budgetary constraints that impact publicly funded projects and clean energy initiatives, the effects of general economic conditions throughout the world, increased competition from other providers of

services, unfavorable tax laws or accounting policies and high leverage. The Fund's portfolio manager relies on available information to assist in the ESG evaluation process, and the process employed for the Fund may differ from processes employed for other funds. The Fund will seek to identify companies that it believes meet its ESG criteria based on the data provided by third parties. The data provided by third parties may be incomplete, inaccurate or unavailable, which could cause the Adviser to incorrectly assess a company's ESG practices. The Fund may invest in companies that do not reflect the beliefs and values of any particular investor.

Equity Securities Risk. Equity prices are volatile and the prices of equity securities in which the Fund invests may fluctuate in response to many factors, including, but not limited to, the activities of the individual companies whose securities the Fund owns, general market and economic conditions, interest rates, and specific industry changes. Such price fluctuations subject the Fund to potential losses.

- **Large-Capitalization Company Risk.** Large-capitalization companies are generally more mature and may be unable to respond as quickly as smaller companies to new competitive challenges, such as changes in technology and consumer tastes, and also may not be able to attain the high growth rate of successful smaller companies, especially during extended periods of economic expansion. There may be times when the returns for large capitalization companies generally trail returns of smaller companies or the overall stock market.
- **Small-Cap and Mid-Cap Company Risk.** Investing in small- and mid-capitalization companies involves greater risk than is customarily associated with larger, more established companies. Small- and mid-cap companies frequently have less management depth and experience, narrower market penetrations, less diverse product lines, less competitive strengths and fewer resources. Due to these and other factors, stocks of small- and mid-cap companies may be more susceptible to market downturns and other events, less liquid, and their prices may be more volatile.

Foreign Securities Risk. Investments in foreign securities involve risks that may be different from those of U.S. securities. Foreign securities may not be subject to uniform audit, financial reporting, or disclosure standards, practices, or requirements comparable to those found in the United States. Foreign securities are also subject to the risk of adverse changes in investment or exchange control regulations or currency exchange rates, expropriation or confiscatory taxation, limitations on the removal of funds or other assets, political or social instability and nationalization of companies or industries. In addition, the dividend and interest payable on certain of the Fund's foreign securities may be subject to foreign withholding taxes. Foreign securities also involve currency risk, which is the risk that the value of a foreign security will decrease due to changes in the relative value of the U.S. dollar and the security's underlying foreign currency.

- **American Depositary Receipt ("ADR") Risk.** ADRs are subject to risks similar to those associated with direct investments in foreign securities. ADRs are securities that evidence ownership interests in a security or a pool of securities issued by a foreign issuer. The risks of depositary receipts include many risks associated with investing directly in foreign securities, such as individual country risk, currency exchange risk, volatility risk, and liquidity risk. ADRs may be available through "sponsored" or "unsponsored" facilities. Unsponsored ADRs, which are issued by a depositary bank without the participation or consent of the issuer, involve additional risks because U.S. reporting requirements do not apply and the issuing bank will recover shareholder distribution costs from movement of share prices and payment of dividends.
- **Currency Risk.** Changes in foreign currency exchange rates will affect the value of the Fund's foreign securities. Generally, when the value of the U.S. dollar raises relative to a foreign currency, securities valued in that foreign currency lose value in terms of U.S. dollars since that foreign currency is worth fewer U.S. dollars. Currency exchange rates can fluctuate for a number of reasons, including the economic stability of a country, changes in interest rates, devaluation of a currency by a country's

government or central banking authority, and overall demand for a currency or lack thereof. Exchange rates can change significantly over short periods.

- **Emerging Markets Risk.** The Fund may invest in emerging market equity securities. In addition to the general risk of investing in foreign securities, investing in emerging markets can involve greater and more unique risks than those associated with investing in more developed markets. The securities markets of emerging countries are generally small, less developed, less liquid, and more volatile than securities markets of the U.S. and other developed markets. The risks of investing in emerging markets include greater social, political and economic uncertainties. Emerging market economies are often dependent upon a few commodities or natural resources that may be significantly adversely affected by volatile price movements against those commodities or natural resources. Emerging market countries may experience high levels of inflation and currency devaluation and have fewer potential buyers for investments. The securities markets and legal systems in emerging market countries may only be in a developmental stage and may provide few, or none, of the advantages and protections of markets or legal systems in more developed countries. Some of these countries may have in the past failed to recognize private property rights and have at times nationalized or expropriated the assets of private companies. Additionally, if settlements do not keep pace with the volume of securities transactions, they may be delayed, potentially causing the Fund's assets to be uninvested, the Fund to miss investment opportunities and potential returns, and the Fund to be unable to sell an investment. As a result of these various risks, investments in emerging markets are considered to be speculative and may be highly volatile.

Issuer Risk. Issuer risk is the risk that an issuer in which the Fund invests or to which it has exposure may perform poorly, and the value of its securities may therefore decline, which would negatively affect the Fund's performance.

Stock Market Risk. The return on and value of an investment in the Fund will fluctuate in response to stock market movements. Stocks are subject to market risks, such as a rapid increase or decrease in a stock's value or liquidity, fluctuations in price due to earnings, economic conditions and other factors beyond the control of the Adviser. A company's share price may decline if a company does not perform as expected, if it is not well managed, if there is a decreased demand for its products or services, or during periods of economic uncertainty or stock market turbulence, among other conditions. In a declining stock market, stock prices for all companies (including those in the Fund's portfolio) may decline, regardless of their long-term prospects. Certain market events could increase volatility and exacerbate market risk, such as changes in governments' economic policies, political turmoil, environmental events, trade disputes, and epidemics, pandemics or other public health issues. For example, the novel coronavirus disease (COVID-19) has resulted in closing borders, quarantines, cancellations, disruptions to supply chains and customer activity, as well as general concern and uncertainty, thus causing significant disruptions to global business activity and financial markets, and company closings and product cutbacks, the broad effects of which are currently difficult to assess. Turbulence in financial markets, and reduced liquidity in equity, credit and fixed income markets may negatively affect many issuers domestically and around the world, and can result in trading halts, any of which could have an adverse impact on the Fund. During periods of market volatility, security prices (including securities held by the Fund) could fall drastically and rapidly and therefore adversely affect the Fund. During periods of market volatility, security prices (including securities held by the Fund) could fall drastically and rapidly and therefore adversely affect the Fund.

New Fund and Management Risk. The Fund is new and has no operating history. Accordingly, investors in the Fund bear the risk that the Fund may not be successful in implementing its investment strategy or growing to an economically viable size, in which case the Board may determine to liquidate the Fund. In addition, although the Adviser has experience managing separate accounts using a similar strategy to the Fund, the Adviser has not previously served as an investment adviser to a registered investment company prior to the Fund's inception.

In addition to the strategies and risks described above, the Fund may invest in other types of securities whose risks are described below and/or in the Fund's Statement of Additional Information ("SAI").

Investments in Money Market Instruments and Temporary Defensive Positions. The Fund will typically hold a portion of its assets in cash or cash equivalent securities, including short-term debt securities, repurchase agreements and money market mutual fund shares (“Money Market Instruments”). The Fund may invest in Money Market Instruments to maintain liquidity or pending the selection of investments. When the Fund invests in a money market mutual fund, the shareholders of the Fund generally will be subject to duplicative management fees. From time to time, the Fund also may, but should not be expected to, take temporary defensive positions that are inconsistent with the Fund’s principal investment strategy in attempting to respond to adverse market, economic, political or other conditions, and in doing so, may invest up to 100% of its assets in Money Market Instruments. To the extent the Fund holds other registered investment companies, including money market mutual funds, the Fund will incur acquired fund fees and expenses (as defined by the U.S. Securities and Exchange Commission (“SEC”)) which means that the Fund will pay its proportionate share of the fees and expenses of the registered investment companies in which it invests. For more information on investments in other investment companies, including money market funds, please see the section “Additional Information on Investments, Strategies, and Risks – Investment Companies” in the SAI. Anytime the Fund takes a temporary defensive position, it may not achieve its investment objective. Additional disclosure regarding the risks of investing in other investment companies can be found in the Fund’s SAI.

CFTC Regulation Risk. To the extent the Fund makes investments regulated by the Commodity Futures Trading Commission (the “CFTC”), the Fund intends to do so in accordance with Rule 4.5 under the Commodity Exchange Act, as amended (the “CEA”). The Adviser, on behalf of the Fund, has filed a notice of eligibility for exclusion from the definition of the term “commodity pool operator” in accordance with Rule 4.5 and therefore, the Adviser is not subject to registration or regulation as a commodity pool under the CEA. If the Fund is unable to comply with the requirements of Rule 4.5, the Adviser may be required to modify the Fund’s investment strategies or be subject to CFTC reporting requirements, either of which may have an adverse effect on the Fund.

Portfolio Holdings and Disclosure Policy. A description of the Fund’s policies and procedures with respect to the disclosure of its portfolio holdings is available in the Fund’s SAI and on the Fund’s website at NIAIMPACTFUNDS.COM.

Additional Information. Whether the Fund is an appropriate investment for an investor will depend largely upon the investor’s financial resources and individual investment goals and objectives. The Fund may not be appropriate for investors who engage in short-term trading and/or other speculative strategies and styles.

FUND MANAGEMENT

The Investment Adviser

Nia Impact Capital (the “Adviser”), located at 341 El Cerrito, Oakland, CA 94611, serves as the investment adviser to the Fund. Pursuant to the Fund’s investment advisory agreement (the “Advisory Agreement”), the Adviser provides the Fund with a continuous program of investing the Fund’s assets and determining the composition of the Fund’s portfolio. The Adviser is a Delaware limited liability company and has registered with the SEC as an investment adviser. The Adviser commenced operations in February 2017 and provides investment advisory services to separately managed accounts. The Adviser has been the investment adviser to the Fund since its commencement of operations in April 2022. Although the Adviser has years of experience advising clients, it had no experience as an investment adviser to a mutual fund prior to the Fund’s inception.

For its services, the Fund pays the Adviser a monthly investment advisory fee (the “Management Fee”) computed at the annual rate of 0.95% of the Fund’s average daily net assets under the terms of the Advisory Agreement. The Adviser has contractually agreed under an expense limitation agreement (the “Expense Limitation Agreement”), until June 30, 2025, to reduce its Management Fee and reimburse Other Expenses to the extent necessary to limit

Total Annual Fund Operating Expenses of the Fund (exclusive of brokerage costs; taxes; interest; borrowing costs such as interest and dividend expenses on securities sold short; costs to organize the Fund; acquired fund fees and expenses; and extraordinary expenses such as litigation and merger or reorganization costs and other expenses not incurred in the ordinary course of the Fund's business) to an amount not exceeding 0.99% of the Fund's average daily net assets. Management Fee reductions and expense reimbursements by the Adviser are subject to repayment by the Fund for a period of three years after the date that such fees and expenses were incurred, provided that the repayments do not cause Total Annual Fund Operating Expenses (exclusive of such reductions and reimbursements) to exceed (i) the expense limitation then in effect, if any and (ii) the expense limitation in effect at the time the expenses to be repaid were incurred. The Expense Limitation Agreement may be terminated by the Adviser or the Board, without approval by the other party, at the end of the current term upon not less than 90 days' notice to the other party as set forth in the Expense Limitation Agreement. The Expense Limitation Agreement will terminate automatically if the Fund's Advisory Agreement with the Adviser is terminated.

A discussion of the factors considered by the Board in its approval of the Fund's Advisory Agreement with the Adviser, including the Board's conclusions with respect thereto, will be available in the Fund's Semi-Annual Report to shareholders for the fiscal period ending August 31, 2022.

Portfolio Manager

The following individual has primary responsibility for day-to-day management of the Fund's portfolio:

Kristin Hull, PhD, serves as CEO and Portfolio Manager of the Adviser and has served in that capacity since 2017. Kristin is a conscious investor empowering individuals, families and organizations to invest at the intersection of environmental sustainability and social justice, for the world they want to see. Kristin launched Nia Global Solutions strategy in 2015 to bring activism and impact investing into the public markets. In doing so, she developed Nia's six solutions-focused investment themes, weaving a gender-lens throughout the investment thesis.

Kristin founded Nia Community Investments in 2010, a 100% mission-aligned investment fund, investing across asset classes, focused on social justice and environmental sustainability in Oakland. Prior to Nia Community, Kristin served as President and Chair of the Board of the Hull Family Foundation from 2007 to 2011, where she oversaw all of the investment efforts, transitioning the endowment from a traditional investment portfolio to one of the country's first 100% mission impact invested portfolios. Kristin is also a co-founder of Impact Hub Oakland, a co-working space nurturing entrepreneurs and social change makers.

Prior to dedicating her career to conscious investing, Kristin served as an educator and classroom teacher. In 1997, Kristin co-founded the North Oakland Community Charter School, and served on the founding board of the George Mark Children's House, the first free standing children's hospice and palliative care center in the U.S.

Kristin is devoted to promoting inclusion and diversity in leadership, to re-envisioning capitalism and to changing the face of finance. She serves on the board of directors for the Mosaic Project and African Women Rising and is an advisor to Playworks, the Nicholson Foundation, and ToSomeone.

Kristin holds a Ph.D. in Urban Education from the University of California at Berkeley, an MA in Research in Bilingual Education from Stanford University. She earned her BA and teaching credentials at Tufts University.

The SAI provides additional information about the Portfolio Manager's compensation, other accounts managed by the Portfolio Manager and her ownership of shares of the Fund.

The Administrator and Transfer Agent

Ultimus Fund Solutions, LLC (“Ultimus”, the “Administrator” or the “Transfer Agent”), located at 225 Pictoria Drive, Suite 450, Cincinnati, Ohio 45246, serves as the Fund’s administrator, transfer agent and fund accounting agent. Management and administrative services provided to the Fund by Ultimus include: (i) providing office space, equipment and officers and clerical personnel to the Fund; (ii) obtaining valuations, calculating net asset value (“NAV”) and performing other accounting, tax and financial services; (iii) recordkeeping; (iv) regulatory reporting services, (v) processing shareholder account transactions and disbursing dividends and other distributions; and (vi) administering custodial and other third-party service provider contracts on behalf of the Fund.

The Distributor

Ultimus Fund Distributors, LLC (the “Distributor”), located at 225 Pictoria Drive, Suite 450, Cincinnati, Ohio 45246, is the Fund’s principal underwriter and serves as the exclusive agent for the distribution of the Fund’s shares. The Distributor may sell the Fund’s shares to or through qualified securities dealers or other approved entities. The SAI has more detailed information about the Adviser and other service providers to the Fund.

HISTORICAL PERFORMANCE OF THE PORTFOLIO MANAGER

Ms. Hull, the Fund’s Portfolio Manager, began managing accounts using the Nia Global Solutions strategy, which is substantially similar to the approach used for the Fund, on December 31, 2015. The performance table below provides a summary of the performance of all accounts (the “Account”) with substantially similar investment objectives, policies, strategies and risks to those of the Fund for calendar years since 2016, and since inception, ended December 31, 2021, and compares the Account’s performance during those periods against an appropriate broad-based securities market index, the MSCI ACWI IMI. As of September 30, 2021, the Account had approximately \$316 million in total assets. There are no material differences between the investment objectives, policies and strategies of the Account and those of the Fund. Ms. Hull, who is primarily responsible for the day-to-day management of the Fund’s portfolio, has been primarily responsible for the day-to-day management of the Account throughout the entire period presented. No other person played a significant part in achieving the Account’s performance.

The performance of the Account does not represent the historical performance of the Fund and should not be considered a substitute for the Fund’s performance or indicative of past or future performance of the Fund. Results may differ because of, among other things, differences in brokerage commissions, account expenses (including management fees), the size of positions taken in relation to account size and diversification of securities, timing of purchases and sales, and availability of cash for new investments. In addition, the Account is not subject to certain investment limitations or other restrictions imposed by the Investment Company Act of 1940 (the “1940 Act”) and the Internal Revenue Code which, if applicable, may have adversely affected the performance results of the Account. The results for different periods may vary.

The performance of the Account, which is unaudited, has been computed by the Adviser in accordance with Global Investment Performance Standards (GIPS®). The performance was calculated in a manner different from the standardized methodology promulgated by the Securities and Exchange Commission under the 1940 Act and used by mutual funds to calculate performance and results in performance data different from that derived from the standardized methodology. The Account’s rate of return includes realized and unrealized gains plus income (including accrued income). The annual and since- inception performance is net of 0.95% per annum management fees. The performance is net of all trading commissions, other fees and expenses. Results reflect the receipt of dividends and capital gains but do not include the reinvestment of dividends and capital gains. Unlike the standard methodology promulgated by the Securities and Exchange Commission, monthly returns combine each individual account’s return (calculated on a time-weighted rate of return basis that is revalued daily) by asset- weighting each

account's asset value as of the beginning of each month, and annual returns are calculated by geometrically linking the monthly returns.

Average Annual Total Returns for Period Ended December 31, 2021	Strategy Composite Account⁽¹⁾	MSCI ACWI IMI⁽²⁾
1 Year	(0.70) %	18.66%
3 Year	37.14 %	20.75%
5 Year	25.57 %	14.63%
Since Inception (December 31, 2015) ⁽³⁾	19.71%	13.67%

⁽¹⁾ The Account's performance is calculated differently from the standardized methodology promulgated by the SEC under the 1940 Act and used by mutual funds to calculate performance and results in performance data different from that derived from the standardized methodology.

⁽²⁾ The MSCI ACWI IMI captures large, mid and small cap representation across 23 Developed Markets and 25 Emerging Markets countries. With 9,309 constituents, the index is comprehensive, covering approximately 99% of the global equity investment opportunity set. Unlike mutual funds, the index does not incur expenses. If expenses were deducted, the actual returns of this index would be lower.

⁽³⁾ Annualized.

HOW THE FUND VALUES ITS SHARES

The NAV of the Fund is calculated as of the close of regular trading on the NYSE (generally 4:00 p.m., Eastern Time) on each day that the NYSE is open for business. Currently, the NYSE is closed on weekends and in recognition of the following holidays: New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Thanksgiving Day, and Christmas Day. To calculate NAV, the Fund's assets are valued and totaled, liabilities are subtracted, and the balance is divided by the number of shares outstanding. The Fund generally values its portfolio securities at their current market values determined based on available market quotations. However, if market quotations are not available or are considered unreliable due to market or other events, portfolio securities will be valued at their fair values, as of the close of regular trading on the NYSE, as determined in good faith under procedures adopted by the Board. When fair value pricing is employed, the prices of securities used by the Fund to calculate its NAV are based on the consideration by the Fund of a number of subjective factors and therefore may differ from quoted or published prices for the same securities. To the extent the assets of the Fund are invested in other registered investment companies that are not listed on an exchange, the Fund's NAV is calculated based upon the NAVs reported by such registered investment companies, and the prospectuses for these companies explain the circumstances under which they will use fair value pricing and the effects of using fair value pricing. To the extent the Fund has portfolio securities that are primarily listed on foreign exchanges that trade on weekends or other days when the Fund does not price its shares, the NAV of the Fund's shares may change on days when shareholders will not be able to purchase or redeem the Fund's shares.

Your order to purchase or redeem shares is priced at the NAV next calculated after your order is received in proper form by the Fund. An order is considered to be in "proper form" if it includes all necessary information and documentation related to the purchase or redemption request, and, if applicable, payment in full of the purchase amount.

HOW TO BUY SHARES

Shares are available for purchase from the Fund every day the NYSE is open for business, at the NAV next calculated after receipt of a purchase order in proper form. The Fund reserves the right to reject any purchase request

and/or suspend its offering of shares at any time. Investors who purchase shares through a broker-dealer or other financial intermediary may be charged a fee by such broker-dealer or intermediary. The Fund mails you confirmations of all purchases or redemptions of Fund shares if shares are purchased directly through the Fund. Certificates representing Fund shares are not issued.

Minimum Initial Investment

The minimum initial investment amount for all accounts is \$1,000. The minimum investment requirement may be waived or reduced for any reason at the discretion of the Fund.

Opening an Account

An account may be opened by mail or bank wire if it is submitted in proper form, as follows:

By Mail. To open a new account by mail:

- Complete and sign the account application.
- Enclose a check payable to the Nia Impact Solutions Fund.
- Mail the application and the check to the Transfer Agent at the following address:

Nia Impact Solutions Fund
P.O. Box 46707
Cincinnati, Ohio 45246-0707

Shares will be issued at the NAV next computed after receipt of your application, in proper form, and check. All purchases must be made in U.S. dollars and checks must be drawn on U.S. financial institutions. The Fund does not accept cash, drafts, “starter” checks, traveler’s checks, credit card checks, post-dated checks, non-U.S. financial institution checks, cashier’s checks under \$10,000, or money orders. In addition, the Fund does not accept checks made payable to third parties. When shares are purchased by check, the proceeds from the redemption of those shares will not be paid until the purchase check has been converted to federal funds, which could take up to 15 calendar days from the date of purchase. If an order to purchase shares is canceled because your check does not clear, you will be responsible for any resulting losses or other fees incurred by the Fund or the Transfer Agent in the transaction.

By sending your check to the Transfer Agent, please be aware that you are authorizing the Transfer Agent to make a one-time electronic debit from your account at the financial institution indicated on your check. Your bank account will be debited as early as the same day the Transfer Agent receives your payment in the amount of your check; no additional amount will be added to the total. The transaction will appear on your bank statement. Your original check will be destroyed once processed, and you will not receive your canceled check back. If the Transfer Agent cannot post the transaction electronically, you authorize the Transfer Agent to present an image copy of your check for payment.

By Wire. To open a new account by wire of federal funds, call the Transfer Agent at 833-571-2833 to obtain the necessary information to instruct your financial institution to wire your investment. A representative will assist you in obtaining an account application, which must be completed, signed and faxed (or mailed) to the Transfer Agent before payment by wire will be accepted.

The Fund requires advance notification of all wire purchases in order to ensure that the wire is received in proper form and that your account is subsequently credited in a timely fashion. Failure to notify the Transfer Agent prior

to the transmittal of the bank wire may result in a delay in purchasing shares of the Fund. An order, following proper advance notification to the Transfer Agent, is considered received when the Fund's custodian, receives payment by wire. If your account application was faxed to the Transfer Agent, you must also mail the completed account application to the Transfer Agent on the same day the wire payment is made. See "Opening an Account – By Mail" above. Your financial institution may charge a fee for wiring funds. Shares will be issued at the NAV next computed after receipt of your wire in proper form.

Through Your Broker or Financial Institution. Shares of the Fund may be purchased through certain brokerage firms and financial institutions that are authorized to accept orders on behalf of the Fund at the NAV next determined after your order is received by such organization in proper form. These organizations are authorized to designate other intermediaries to receive purchase orders on the Fund's behalf. The Fund will be deemed to have received a purchase or redemption order when an authorized broker or, if applicable, a broker's authorized designee, receives the order in proper form. Certain financial intermediaries may charge fees for purchase and/or redemption transactions by customers, depending upon the nature and terms of the financial intermediaries' particular platform. Additionally, investors purchasing shares from a broker or other financial intermediary may be required to pay a commission in connection with such purchases. Such investor should consult with their financial intermediary regarding any commissions and other fees and expenses of the shares being purchased. These organizations may charge you transaction fees on purchases of Fund shares and may impose other charges or restrictions or account options that differ from those applicable to shareholders who purchase shares directly through the Fund. These organizations may be the shareholders of record of your shares. The Fund is not responsible for ensuring that these organizations carry out their obligations to their customers. Shareholders investing in this manner should look to the organization through which they invest for specific instructions on how to purchase and redeem shares.

Subsequent Investments

Once an account is open, additional purchases of Fund shares may be made at any time in minimum amounts of \$100. Additional purchases must be submitted in proper form as described below. Additional purchases may be made:

- By sending a check, made payable to the Nia Impact Solutions Fund, P.O. Box 46707, Cincinnati, Ohio 45246-0707. Be sure to note your account number on the memo line of your check. The shareholder will be responsible for any fees incurred or losses suffered by the Fund as a result of any check returned for insufficient funds.
- By wire to the Fund account as described under "Opening an Account – By Wire." Shareholders are required to call the Transfer Agent at 833-571-2833 before wiring funds.
- Through your brokerage firm or other financial institution.

Automatic Investment Plan and Direct Deposit Plans

You may make automatic monthly investments in the Fund from your account held at a bank, savings and loan or other depository institution. The minimum investments under the automatic investment plan must be at least \$100 under the plan and are made on the 15th and/or last business day of the month. The Transfer Agent currently pays the costs of this service, but reserves the right, upon 30 days written notice, to make reasonable charges. Your depository institution may impose its own charge for making transfers from your account.

Your employer may offer a direct deposit plan, which will allow you to have all or a portion of your paycheck transferred automatically to purchase shares of the Fund. Social Security recipients may have all or a portion of their social security check transferred automatically to purchase shares of the Fund. Please call 833-571-2833 for more information about the automatic investment plan and direct deposit plans.

Purchases in Kind

The Fund may accept securities in lieu of cash in payment for the purchase of shares of the Fund. The acceptance of such securities is at the sole discretion of the Adviser based upon the suitability of the securities as an investment for the Fund, the marketability of such securities, and other factors which the Fund may deem appropriate. If accepted, the securities will be valued using the same criteria and methods utilized for valuing securities to compute the Fund's NAV.

Customer Identification and Verification

To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify and record information that identifies each person that opens a new account, and to determine whether such person's name appears on government lists of known or suspected terrorists and terrorist organizations. As a result, the Fund must obtain the following information for each person that opens a new account:

- Name;
- Date of birth (for individuals);
- Residential or business street address (although post office boxes are still permitted for mailing); and
- Social security number, other taxpayer identification number, or other identifying number.

You may also be asked for a copy of your driver's license, passport, or other identifying document in order to verify your identity. In addition, it may be necessary to verify your identity by cross-referencing your identification information with a consumer report or other electronic database. Additional information may be required to open accounts for corporations and other entities. *Federal law prohibits the Fund and other financial institutions from opening a new account unless they receive the minimum identifying information listed above.*

After an account is opened, the Fund may restrict your ability to purchase additional shares until your identity is verified. The Fund also may close your account or take other appropriate action if it is unable to verify your identity within a reasonable time. If your account is closed for this reason, your shares will be redeemed at the NAV next calculated after the account is closed. In that case, your redemption proceeds may be worth more or less than your original investment. The Fund will not be responsible for any loss incurred due to the Fund's inability to verify your identity.

Frequent Trading Policies

Frequent purchases and redemptions of Fund shares by a shareholder may harm other Fund shareholders by interfering with the efficient management of the Fund's portfolio, increasing brokerage and administrative costs, and potentially diluting the value of the Fund's shares. The Fund does not accommodate frequent purchases or redemptions of Fund shares that result in disruptive trading.

The Board has adopted policies and procedures in an effort to detect and prevent disruptive trading, including market timing in the Fund. The Fund, through its service providers, monitors shareholder trading activity to ensure it complies with the Fund's policies. The Fund prepares reports illustrating purchase and redemption activity to detect disruptive trading activity. When monitoring shareholder purchases and redemptions, the Fund does not apply a quantitative definition to frequent trading. Instead the Fund uses a subjective approach that permits it to reject any purchase orders that it believes may be indicative of market timing or disruptive trading. The right to reject a purchase order applies to any purchase order, including a purchase order placed by financial intermediaries. The Fund may also modify any terms or conditions of purchases of Fund shares or withdraw all or any part of the offering made by this Prospectus. The Fund's policies and procedures to prevent disruptive trading activity are

applied uniformly to all shareholders. These actions, in the Board's opinion, should help reduce the risk of abusive trading in the Fund.

When financial intermediaries establish omnibus accounts in the Fund for their clients, the Fund reviews trading activity at the omnibus account level and looks for activity that may indicate potential frequent trading or disruptive trading. If the Fund detects potentially disruptive trading activity, the Fund will seek the assistance of the intermediary to investigate that trading activity and take appropriate action, including prohibiting additional purchases of Fund shares by the intermediary and/or its client. Each intermediary that offers the Fund's shares through an omnibus account has entered into an information sharing agreement with the Fund designed to assist the Fund in stopping future disruptive trading. Intermediaries may apply frequent trading policies that differ from those described in this Prospectus. If you invest in the Fund through an intermediary, please read that firm's program materials carefully to learn of any rules or fees that may apply.

Although the Fund has taken steps to discourage frequent purchases and redemptions of Fund shares, it cannot guarantee that such trading will not occur.

HOW TO REDEEM SHARES

Shares of the Fund may be redeemed on any day on which the Fund computes its NAV. Shares are redeemed at the NAV next determined after the Transfer Agent receives your redemption request in proper form as described below. Redemption requests may be made by mail or by telephone.

By Mail. You may redeem shares by mailing a written request to Nia Impact Solutions Fund, P.O. Box 46707, Cincinnati, Ohio 45246-0707. Written requests must state the shareholder's name, the account number and the shares or dollar amount to be redeemed and be signed exactly as the shares are registered with the Fund.

Signature Guarantees. If the shares to be redeemed have a value of greater than \$50,000, or if the payment of the proceeds of a redemption of any amount is to be sent to a person other than the shareholder of record or to an address other than that on record with the Fund, you must have all signatures on written redemption requests guaranteed. If the name(s) or the address on your account has changed within the previous 15 days of your redemption request, the request must be made in writing with your signature guaranteed, regardless of the value of the shares being redeemed. The Transfer Agent will accept signatures guaranteed by a domestic bank or trust company, broker, dealer, clearing agency, savings association or other financial institution that participates in the Securities Transfer Agents Medallion Program ("STAMP") sponsored by the Securities Transfer Association. Signature guarantees from financial institutions that do not participate in STAMP will not be accepted. A notary public cannot provide a signature guarantee. The Transfer Agent has adopted standards for accepting signature guarantees from the above institutions. The Fund and the Transfer Agent reserve the right to amend these standards at any time without notice.

Redemption requests by corporate and fiduciary shareholders must be accompanied by appropriate documentation establishing the authority of the person seeking to act on behalf of the account. Forms of resolutions and other documentation to assist in compliance with the Transfer Agent's procedures may be obtained by calling the Transfer Agent.

By Telephone. Unless you specifically decline the telephone redemption privilege on your account application, you may also redeem shares having a value of \$50,000 or less by telephone by calling the Transfer Agent at 833-571-2833.

Telephone redemptions may be requested only if the proceeds are to be sent to the shareholder of record and mailed to the address on record with the Fund. Account designations may be changed by sending the Transfer Agent a written request with all signatures guaranteed as described above. Upon request, redemption proceeds of \$100 or more may be transferred electronically from an account you maintain with a financial institution by an Automated

Clearing House (“ACH”) transaction, and proceeds of \$1,000 or more may be transferred by wire, in either case to the account stated on the account application. Shareholders may be charged a fee of \$15 by the Fund’s custodian for outgoing wires.

The Transfer Agent requires personal identification before accepting any redemption request by telephone, and telephone redemption instructions may be recorded. If reasonable procedures are followed by the Transfer Agent, neither the Transfer Agent nor the Fund will be liable for losses due to unauthorized or fraudulent telephone instructions. “Reasonable procedures” include but are not limited to the Transfer Agent confirming that the account is eligible for telephone transactions, requesting some form of personal identification (e.g., social security number, date of birth, etc.) from you prior to acting on telephonic instructions, and getting a verbal confirmation from you on a recorded line at the time of the transaction. In the event of drastic economic or market changes, a shareholder may experience difficulty in redeeming shares by telephone. If such a case should occur, redemption by mail should be considered.

Through Your Broker or Financial Institution. You may also redeem your shares through a brokerage firm or financial institution that has been authorized to accept orders on behalf of the Fund at the NAV next determined after your order is received by such organization in proper form. These organizations are authorized to designate other intermediaries to receive redemption orders on the Fund’s behalf. The Fund calculates its NAV as of the close of regular trading on the NYSE (generally 4:00 p.m. Eastern Time). Your brokerage firm or financial institution may require a redemption request to be received, in proper form, at an earlier time during the day in order for your redemption to be effective as of the day the order is received. Such an organization may charge you transaction fees on redemptions of Fund shares and may impose other charges or restrictions or account options that differ from those applicable to shareholders who redeem shares directly through the Transfer Agent.

Receiving Payment. The length of time the Fund typically expects to pay redemption proceeds is the same regardless of whether the payment is made by check, wire or ACH. The Fund typically expects to pay redemption proceeds for shares redeemed within the following days after receipt by the Transfer Agent of a redemption request in proper form:

- For payment by check, the Fund typically expects to mail the check within one (1) to three (3) business days; and
- For payment by wire or ACH, the Fund typically expects to process the payment within one (1) to three (3) business days.

Payment of redemption proceeds may take longer than the time the Fund typically expects and may take up to 7 calendar days as permitted under the 1940 Act. Under unusual circumstances as permitted by the SEC, the Fund may suspend the right of redemption or delay payment of redemption proceeds for more than 7 calendar days. When shares are purchased by check or through ACH, the proceeds from the redemption of those shares will not be paid until the purchase check or ACH transfer has been converted to federal funds, which could take up to 15 calendar days.

Minimum Account Balance

Due to the high cost of maintaining shareholder accounts, the Fund may involuntarily redeem shares in an account, and pay the proceeds to the shareholder, if the shareholder’s activity causes the account balance to fall below the Fund’s minimum initial investment amount (the “Minimum Account Balance”). Such automatic redemptions may cause a taxable event for the shareholder. An automatic redemption does not apply, however, if the balance falls below the Minimum Account Balance solely because of a decline in the Fund’s NAV. Before shares are redeemed

to close an account, the shareholder is notified in writing and allowed 30 calendar days to purchase additional shares to meet the Minimum Account Balance requirement.

Automatic Withdrawal Plan

If the shares of the Fund in your account have a value of at least \$5,000, you (or another person you have designated) may receive monthly or quarterly payments in a specified amount of not less than \$100 each. There is currently no charge for this service, but the Transfer Agent reserves the right, upon 30 calendar days written notice, to make reasonable charges. Call the Transfer Agent toll-free at 833-571-2833 for additional information.

Other Redemption Information

Generally, all redemptions will be paid in cash. The Fund typically expects to satisfy redemption requests by using holdings of cash or cash equivalents or selling portfolio assets. On a less regular basis and if the Adviser believes it is in the best interest of the Fund and its shareholders not to sell portfolio assets, the Fund may satisfy redemption requests by using short-term borrowing from the Fund's custodian. These methods normally will be used during both regular and stressed market conditions. In addition to paying redemption proceeds in cash, the Fund reserves the right to make payment for a redemption in securities rather than cash, which is known as a "redemption in kind." Redemptions in kind will be made only under extraordinary circumstances and if the Fund deems it advisable for the benefit of all shareholders, such as a very large redemption that could affect Fund operations (for example, more than 1% of the Fund's net assets). A redemption in kind will consist of securities equal in market value to the Fund shares being redeemed, using the same valuation procedures that the Fund uses to compute its NAV. Redemption in kind proceeds will typically be made by delivering a pro-rata amount of the Fund's holdings to the redeeming shareholder within 7 calendar days after the Fund's receipt of the redemption order in proper form. If the Fund redeems your shares in kind, you will bear the market risks associated with maintaining or selling the securities that are transferred as redemption proceeds. In addition, when you sell these securities, you may pay taxes and brokerage charges associated with selling the securities.

DIVIDENDS, DISTRIBUTIONS AND TAXES

The following information is meant as a general summary for U.S. taxpayers. Additional tax information appears in the SAI. Shareholders should rely on their own advisors for advice about the particular federal, state, and local tax consequences of investing in the Fund.

Income dividends and net capital gain distributions, if any, are normally declared and paid annually by the Fund in December. Your distributions of dividends and capital gains will be automatically reinvested in additional shares of the Fund unless you elect to receive them in cash. Although the Fund will not be taxed on amounts it distributes, shareholders will generally be taxed on distributions paid by the Fund, regardless of whether distributions are paid in cash or reinvested in additional Fund shares.

The Fund intends to distribute substantially all of its net investment income and net realized capital gains, if any. The dividends and distributions you receive, whether in cash or reinvested in additional shares of the Fund, may be subject to federal, state, and local taxation, depending upon your tax situation. Distributions attributable to ordinary income and short-term capital gains are generally taxed as ordinary income, although certain income dividends may be taxed to non-corporate shareholders at long-term capital gains rates. In the case of corporations that hold shares of the Fund, certain income from the Fund may qualify for a 50% dividends-received deduction. Distributions of long-term capital gains are generally taxed as long-term capital gains, regardless of how long you have held your Fund shares.

The Fund intends to qualify each year as a regulated investment company ("RIC") for federal income tax purposes. If it meets certain minimum distribution requirements, a RIC will not be subject to federal income tax on its taxable

income and gains from investments that it timely distributes to its shareholders. The Fund intends to distribute its income and gains in such a way that it will not be subject to a federal 4% excise tax on certain undistributed amounts. However, a Fund's failure to qualify as a RIC or to meet minimum distribution requirements would result (if certain relief provisions were not available) in fund-level taxation and, consequently, a reduction in income available for distribution to shareholders. In order to qualify for taxation as a RIC, the Fund must derive at least 90% of its gross income each taxable year from qualifying income and diversify its assets as described in more detail in the SAI. The Fund will monitor its investments with the objective of maintaining its qualification as a RIC under the Code.

When you redeem Fund shares, you will generally realize a capital gain or loss if you hold the shares as capital assets. Except for investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or IRAs, and tax-exempt investors that do not borrow to purchase Fund shares, any gain realized on an exchange or redemption of Fund shares will be subject to federal income tax. All or a portion of any loss realized upon a taxable disposition of Fund shares will be disallowed if you purchase other substantially identical shares within 30 days before or 30 days after the disposition. In such a case, the basis of the newly purchased shares will be adjusted to reflect the disallowed loss.

U.S. individuals with income exceeding \$200,000 (\$250,000 if married and filing jointly) are subject to a 3.8% tax on their "net investment income," including interest, dividends, and capital gains (including capital gains realized on the sale or exchange of shares of the Fund).

You will be notified by February 15th of each year about the federal tax status of distributions made by the Fund during the prior year. Depending on your residence for tax purposes, distributions also may be subject to state and local taxes.

Federal law requires the Fund to withhold taxes on distributions paid to shareholders who fail to provide a social security number or taxpayer identification number or fail to certify that such number is correct, or who have been notified by the IRS that they are subject to backup withholding. Backup withholding is not an additional tax; rather, it is a way in which the IRS ensures it will collect taxes otherwise due. Any amounts withheld may be credited against a shareholder's U.S. federal income tax liability.

Mutual fund companies are required to report cost basis information to the IRS on Form 1099-B for sales of mutual fund shares ("Covered Shares"). Under these regulations, mutual funds must select a default cost basis calculation method and apply that method to the sale of Covered Shares unless an alternate IRS approved method is specifically elected in writing by the shareholder. Average Cost, which is the mutual fund industry standard, has been selected as the Fund's default cost basis calculation method. If a shareholder determines that an IRS approved cost basis calculation method other than the Fund's default method of Average Cost is more appropriate, the shareholder must contact the Fund at the time of or in advance of the sale of Covered Shares that are to be subject to that alternate election. IRS regulations do not permit the change of a cost basis election on previously executed trades.

Shareholders that are not "U.S. persons" within the meaning of the Code ("non-U.S. shareholders") should consult their tax advisers and, if holding shares through intermediaries, their intermediaries, concerning the application of U.S. tax rules and tax rules of other applicable jurisdictions to their investment in the Fund.

Because everyone's tax situation is not the same, you should consult your tax professional about federal, state and local tax consequences of an investment in the Fund.

FINANCIAL HIGHLIGHTS

Because the Fund is new, there is no financial or performance information included in this prospectus for the Fund. The fiscal year end of the Fund is the last day of February each year. Once the information becomes available, you may request a copy of this information by calling the Fund at 833-571-2833.

CUSTOMER PRIVACY NOTICE

FACTS	WHAT DOES THE NIA IMPACT SOLUTIONS FUND (the “Fund”) DO WITH YOUR PERSONAL INFORMATION?
Why?	Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.
What?	<p>The types of personal information we collect and share depend on the product or service you have with us. This information can include:</p> <ul style="list-style-type: none"> ▪ Social Security number ▪ Assets ▪ Retirement Assets ▪ Transaction History ▪ Checking Account Information ▪ Purchase History ▪ Account Balances ▪ Account Transactions ▪ Wire Transfer Instructions <p>When you are no longer our customer, we continue to share your information as described in this notice.</p>
How?	All financial companies need to share your personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers’ personal information; the reasons the Fund chooses to share; and whether you can limit this sharing.

Reasons we can share your personal information	Does the Fund share?	Can you limit this sharing?
For our everyday business purposes – Such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus	Yes	No
For our marketing purposes – to offer our products and services to you	No	We don’t share
For joint marketing with other financial companies	No	We don’t share
For our affiliates’ everyday business purposes – information about your transactions and experiences	No	We don’t share
For our affiliates’ everyday business purposes – information about your creditworthiness	No	We don’t share
For non-affiliates to market to you	No	We don’t share

Who we are

Who is providing this notice? Nia Impact Solutions Fund
Ultimus Fund Distributors, LLC (Distributor)
Ultimus Fund Solutions, LLC (Administrator)

What we do

How does the Fund protect my personal information? To protect your personal information from unauthorized access and use, we use security measures that comply with federal law. These measures include computer safeguards and secured files and buildings.

Our service providers are held accountable for adhering to strict policies and procedures to prevent any misuse of your nonpublic personal information.

How does the Fund collect my personal information? We collect your personal information, for example, when you

- Open an account
- Provide account information
- Give us your contact information
- Make deposits or withdrawals from your account
- Make a wire transfer
- Tell us where to send the money
- Tell us who receives the money
- Show your government-issued ID
- Show your driver's license

We also collect your personal information from other companies.

Why can't I limit all sharing? Federal law gives you the right to limit only

- Sharing for affiliates' everyday business purposes – information about your creditworthiness
- Affiliates from using your information to market to you
- Sharing for non-affiliates to market to you

State laws and individual companies may give you additional rights to limit sharing.

Definitions

Affiliates Companies related by common ownership or control. They can be financial and nonfinancial companies.

- Nia Impact Capital, the investment adviser to the Fund, could be deemed to be an affiliate.

Non-affiliates Companies not related by common ownership or control. They can be financial and nonfinancial companies

- The Fund does not share with non-affiliates so they can market to you.

Joint marketing A formal agreement between nonaffiliated financial companies that together market financial products or services to you.

- The Fund does not jointly market.

FOR ADDITIONAL INFORMATION

Additional information about the Fund is included in the SAI, which is incorporated by reference in its entirety.

Additional information about the Fund's investments will be available in the Fund's Annual and Semi-Annual Reports to shareholders. In the Fund's Annual Report, you will find a discussion of the market conditions and strategies that significantly affected the Fund's performance during its last fiscal period.

To obtain a free copy of the SAI, the Annual and Semi-Annual Reports or other information about the Fund, or to make inquiries about the Fund, please call Toll-Free:

833-571-2833

This Prospectus, the SAI and the most recent shareholder reports are also available without charge on the Fund's website at NIAIMPACTFUNDS.COM or upon written request to the Fund at:

Nia Impact Solutions Fund
P.O. Box 46707
Cincinnati, Ohio 45246-0707

Only one copy of a Prospectus or an Annual or Semi-Annual Report will be sent to each household address. This process, known as "Householding," is used for most required shareholder mailings. (It does not apply to confirmations of transactions and account statements, however). You may, of course, request an additional copy of a Prospectus or an Annual or Semi-Annual Report at any time by calling or writing the Fund or by downloading at NIAIMPACTFUNDS.COM. You may also request that Householding be eliminated from all your required mailings.

Reports and other information about the Fund are available on the EDGAR Database on the SEC's Internet site at <http://www.sec.gov>. Copies of information on the SEC's Internet site may be obtained, upon payment of a duplicating fee, by electronic request at the following email address: publicinfo@sec.gov.
