P/E Current: Price-to-Earnings is the current share price of a stock dividend by its earnings per share.

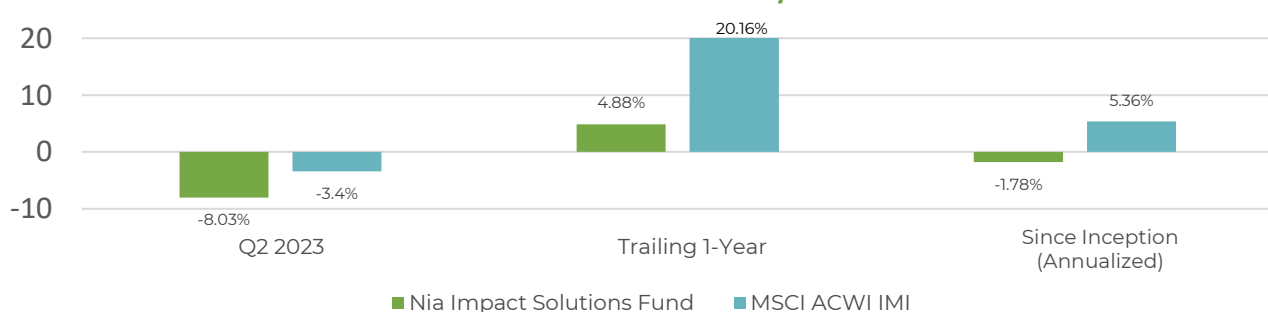

Price/Book: This ratio compares a stock's market value to its book value, calculated by dividing the current price of the stock by the latest quarter's book value per share.

Price/Sales: This ratio is a valuation ratio that compares a company's stock price to its revenues.

Price/Cash Flow: This ratio measures the value of a stock's price relative to its operating cash flow per share.

Active Share: This tracks the difference between a portfolio manager's holdings and that of a benchmark index.

Performance History

*Nia Impact Capital (the "Adviser") has contractually agreed, until June 30, 2025, to reduce Management Fees and reimburse Other Expenses to the extent necessary to limit Total Annual Fund Operating Expenses. **The performance data quoted represents past performance. Current performance may be lower or higher than the performance data quoted above. Past performance is no guarantee of future results. The investment return and principal value of an investment will fluctuate so that investor's shares, when redeemed, may be worth more or less than their original cost. Investors are advised to carefully consider the investment objectives, risks, and charges and expenses of the fund before investing. The prospectus contains this and other information about the fund, and we advise reading carefully before investing. Investors may obtain a copy of the prospectus at www.niaimpactfunds.com or by calling (833) 571-2833.

Important Information:

The MSCI ACWI IMI captures large, mid and small cap representation across 23 Developed Markets and 25 Emerging Markets countries. With 9,309 constituents, the index is comprehensive, covering approximately 99% of the global equity investment opportunity set. Unlike mutual funds, the index does not incur expenses. If expenses were deducted, the actual returns of this index would be lower.

As with any mutual fund investment, there is a risk that you could lose money by investing in the Fund. The success of the Fund's investment strategy depends largely upon the Adviser's skill in selecting securities for purchase and sale by the Fund and there is no assurance that the Fund will achieve its investment objective.

The Fund's incorporation of ESG considerations in its investment process may cause it to make different investments than funds that have a similar investment universe and/or investment style but that do not incorporate such considerations in their strategy or investment processes. Under certain economic conditions, this could cause the Fund's investment performance to be worse than similar funds that do not incorporate such considerations in their investment strategies or processes. In applying ESG criteria to its investment decisions, the Fund may forgo higher-yielding investments that it would invest in absent the application of its ESG investing criteria.

The Fund is new and has no operating history. Accordingly, investors in the Fund bear the risk that the Fund may not be successful in implementing its investment strategy or growing to an economically viable size.

Nia Impact Solutions Fund is distributed by Ultimus Fund Distributors, LLC (Member FINRA). Ultimus Fund Distributors, LLC and Nia Impact Capital are separate and unaffiliated
